CLOUD NETWORK MANAGEMENT

MICRONET
microwave broadband data & internet connections

Imagine what you could do with one of the fastest, most reliable internet connections available in the Midwest

MICRONET IS YOUR BEST CHOICE FOR CONNECTING TO THE CLOUD

We all know the shortest distance between two points is a straight line. With 5NINES MicroNet, that's exactly what you get—point-to-point wireless connectivity at speeds up to **50 times faster** than T1, cable and DSL. What is MicroNet? It's our commercial grade wireless microwave network that connects area businesses directly to our Cloud Center which boasts multiple and diverse **10 Gigabit** connection paths to the world.

FACT: MicroNet has been online for over five years and it's proven to be more reliable than T1, cable and DSL circuits. We're proud to offer this service at a fraction of land line costs. MicroNet is a great way to **provide redundancy** for land-based networks (when they go down) and features the highest level of data security in the industry.

WE OFFER A WIDE RANGE OF CARRIERS TO CHOOSE FROM
(read: you don't have to be chained to one ISP anymore)

MICRONET FEATURES

- **Lowest cost** commercial broadband with Internet access speeds up to **50 times faster** than T1!
- **Secure:** Private/encrypted local network circuits
- **Scalable** to meet demands as your company grows
- **Supports** 5NINES Cloud Services like data backup
- **Choice:** Carrier neutral—you choose your carrier
- **Best of all:** You only pay for what you use!

MICRONET BENEFITS

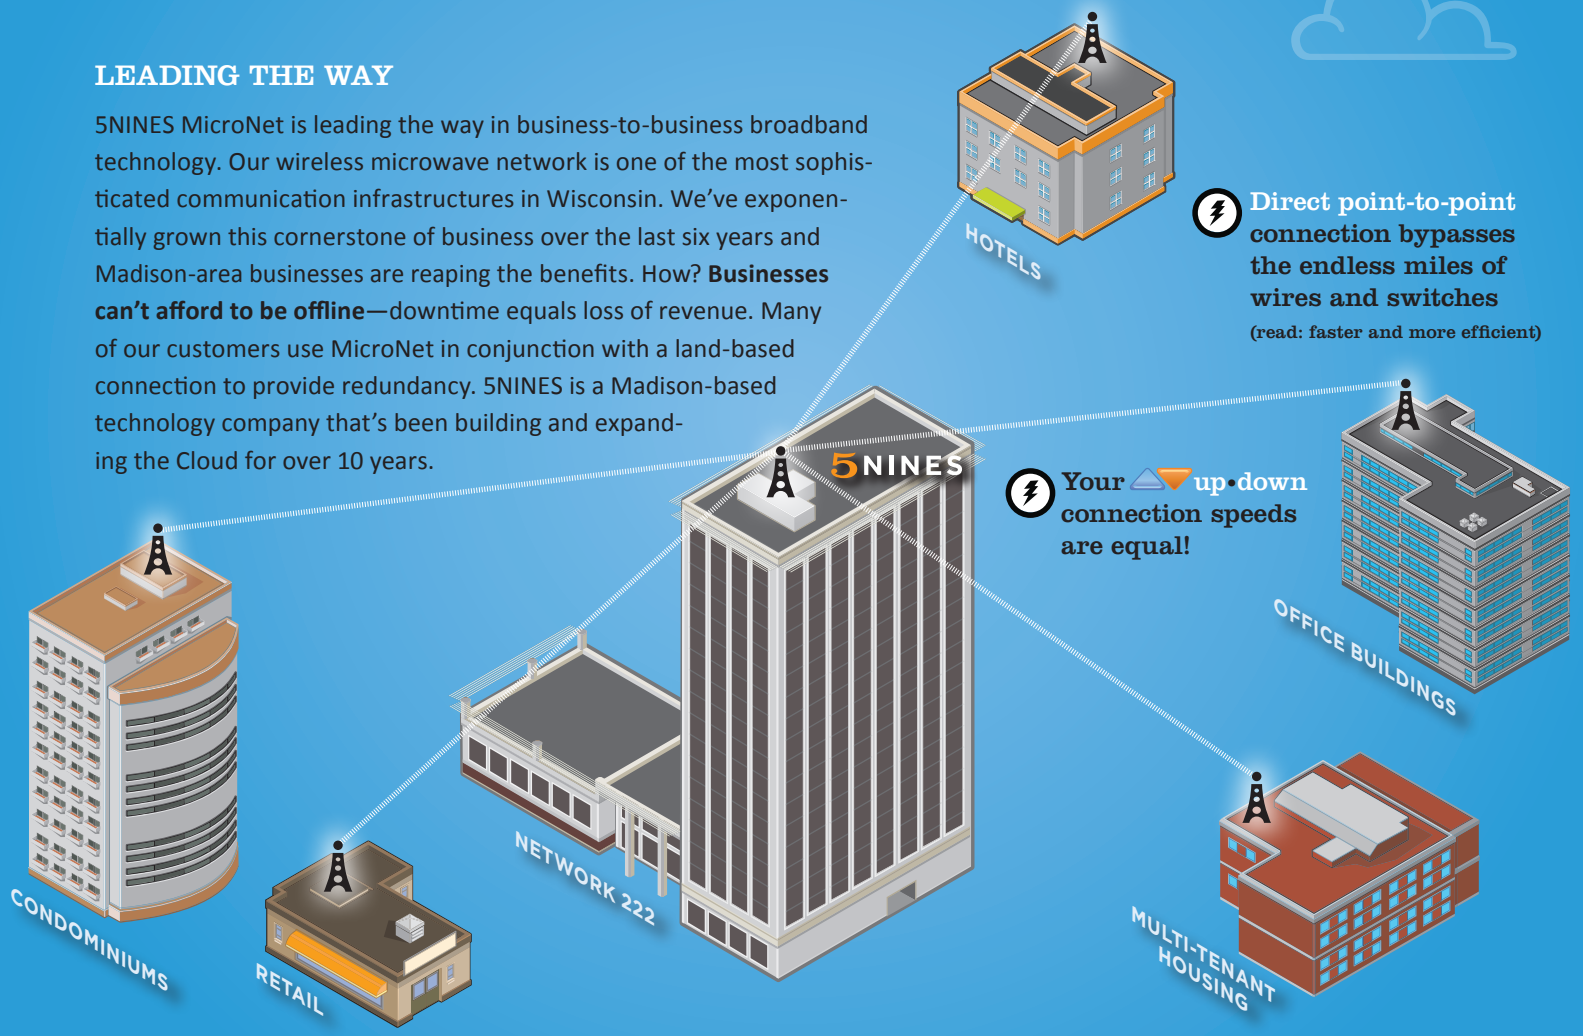

MicroNet is part of the 5NINES Cloud—centralized computing for your business. This means it works seamlessly with our Cloud Hosting Services:

- Expert network design service
- Multiple Gigabit and 10 Gigabit Internet sources
- DataSafe—automated remote data backup & recovery
- Direct access to regional and national fiber networks
- Direct connection to our Tier 3/4 data center
- Help Desk support with Level 2 & 3 expertise available 24/7

Time to get your head (and your business) in the Cloud —MICRONET will take you there

LEADING THE WAY

5NINES MicroNet is leading the way in business-to-business broadband technology. Our wireless microwave network is one of the most sophisticated communication infrastructures in Wisconsin. We've exponentially grown this cornerstone of business over the last six years and Madison-area businesses are reaping the benefits. How? **Businesses can't afford to be offline**—downtime equals loss of revenue. Many of our customers use MicroNet in conjunction with a land-based connection to provide redundancy. 5NINES is a Madison-based technology company that's been building and expanding the Cloud for over 10 years.

ENJOY THE FASTEST CONNECTION AVAILABLE

MICRONET PRICE GUIDE

MicroNet connection speeds are symmetric: This means **up and down speed is the same!** Site evaluation is free.

BASIC SERVICE LEVELS

5Mbps	▲▼ UP•DOWN	\$200/month
10Mbps	▲▼ UP•DOWN	\$375
20Mbps	▲▼ UP•DOWN	\$650

Pricing and availability is dependent on your specific location. Pricing is based on a 36-month contract and setup fees are equal to one month of service.
